

Naimur Rahman Hridoy

Frontend Developer

naimurrahman82@gmail.com | +8801401254113 | Dhaka, Bangladesh

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SKILLS

Language: HTML, CSS, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Shadcn UI, Material UI, React Hook Form, Chart.js, Axios, GraphQL API, TreeQL, PWA

Backend: Node.js, Express.js, REST API, MongoDB, MySQL

Tools: Figma, Postman, Cursor, JS Doc, Stripe, Jira, Netlify, Vercel, Firebase

WORK EXPERIENCE

Frontend Web Developer

Manaknight Digital Inc. — Toronto, Ontario, Canada | Jan 2024 – Nov 2024

- Improved React app performance by 40% using code-splitting, lazy loading, dependency reduction, and optimizing re-renders through component-based architecture, Redux, and memoization.
- Developed AI-driven features like voice-to-text, virtual support, and code generation, reducing development time by 30% through API integration.
- Delivered complete features for client production applications within tight deadlines, improving project efficiency and timely delivery.
- Collaborated with backend, Android, and iOS teams to optimize APIs and resolve technical issues, showcasing strong teamwork and communication.
- Created an interactive Android configuration preview, streamlining UI setup and cutting deployment errors by 20%.

Frontend Software Engineer

MedLink Healthcare Private Limited — Hyderabad, Telangana, India | Feb 2022 – Dec 2023

- Translated Figma designs into accurate React-MUI interfaces, improving job search and recruitment for 100,000+ users while adhering to UI/UX best practices.
- Architected secure authentication with AWS Cognito, refresh tokens, and environment variables, mitigating security risks.
- Built key features for job seeker and recruiter profiles, enhancing user accessibility and streamlining the healthcare recruitment process.
- Optimized responsive layouts, reducing cross-device testing time and ensuring UI consistency across 20+ screen sizes using MUI breakpoints.
- Enhanced front-end performance, streamlining job and resume searches for 20,000+ users via GraphQL API integration.
- Utilized Jira, Bitbucket, and Figma to efficiently track, manage, and develop software projects using agile methodology.

PROJECTS

Baas Brand — AI-Powered Wireframe & Requirement Tool

[Live Site](#)

- Developed a PDF processing system with automated transcription and speech-to-text, improving clarity and accessibility.
- Built an AI-powered virtual support chat, boosting user engagement and real-time query resolution.
- Refined the model definition tool and resolved front-end issues, streamlining API integration and enabling one-click Postman documentation export.
- Integrated an AI-powered code and query generator, enabling real-time requirement edits.
- Streamlined configuration and deployment workflows by developing React-based web wireframes.

Technologies: React.js, Node.js, TreeQL, Tailwind CSS, AI Integration, AI Chat, Cursor, Postman, Jenkins

MedLink Jobs — India's First Healthcare Recruitment Platform

[Live Site](#)

- Revamped job seeker flows (search, application, profile management), enhancing user navigation and experience.
- Developed recruiter-focused features such as profile search, filtering, and premium resume access, optimizing hiring workflows.
- Optimized job search performance and traffic management by integrating AWS Lambda with GraphQL.
- Improved file validation for multiple types (e.g., Autocompletes, Descriptions), ensuring seamless API integration.

Technologies: React.js, Material UI, GraphQL, AWS services, Firebase, Geolocation, JWT, REST API

University Computer Club — Role-Based Club Management Platform

[Live Site](#) | [Source Code](#)

- Directed front-end development of a role-based web app, streamlining workflows for admins and members.
- Crafted responsive, intuitive UIs for authentication, event management, and online voting, boosting accessibility and user engagement.
- Designed and tested a scalable role-based access control system for students and admins, enhancing security and user management.
- Mentored junior front-end developers, enhancing code efficiency and accelerating feature delivery.
- Reviewed and optimized the online voting system and event management hub, enhancing user experience and functionality.

Technologies: React.js, Tailwind CSS, Shadcn UI, Django-admin, REST API

EDUCATION

B.Sc in Computer Science and Engineering

City University, Bangladesh (2023 – 2026)

LANGUAGE

Bangla (Native), **English** (Professional Proficiency)
